March 24, 2011

Governor Scott Walker
115 East Capitol
Madison WI 53702

Dear Gov. Walker,

Members of the State Engineering Association will be traveling from across the state to the Capitol to visit with their elected representatives this April 6. This event has for years been an annual tradition of our Association. As taxpayers, constituents and represented employees of the State Wisconsin, a small group of these professional state employees would like to meet with you or your representative to discuss issues of concern.

Among those issues are the state's continuing wasteful expenditure of tax dollars through waste, fraud and unnecessary outsourcing of government work to pricey private consultants. In this regard please note that a group of SEA officers recently met with a team representing Transportation Secretary Gottlieb at his request. The two sides discussed wasteful practices in the Department of Transportation, including unnecessary and expensive outsourcing to private consultants. The Association would like to follow up with your office to see what is being done to address these concerns.

One of our officers will contact your appointments director in a few days to ask about possible times for such a meeting on April 6 and to seek confirmation.

Sincerely,

A handwritten signature in black ink, appearing to read "Mark Klipstein".

Mark Klipstein
President
State Engineering Association
